"Recently, I observed Chantz exhibit extreme calm after one of his competitors took him out and did severe damage to his kart. It was an excellent display of good sportsmanship as not a tinge of anger was discernable. I've had the pleasure of watching Chantz drive in many club events and in addition to being impressed by his record on the track, I am most impressed that he always finds the time to say hello and encourage my 14 year-old son who wants to be a racer. Driving skill can be learned; good character is a gift."

- BRIAN CAPO
AUTO SPORT MOTORING ACCESSORIES

"Even though I do not work in the racing industry (I'm an engineering manager for Advanced Micro Devices and manage a team of 55 engineers and technicians), I have a good idea of what a race team looks for in a driver. First, a driver needs to have a strong, competitive nature. This trait cannot be taught, and Chantz definitely has it! In addition, Chantz has the technical communication skills to make car setup expedient and exact. From the first time I met Chantz at the track, there have been a number of times when I described to him how my kart was working and he was immediately able to diagnose the problem and tell me how to tune the chassis or engine to fix that problem. Chantz has a professional demeanor that will enable him to work well with sponsors. He is very friendly and instantly likeable. He has quite a few fans at the kart track and I've been told he is the most requested instructor that the Race Ready Karting School has ever employed. And, finally, Chantz has the natural driving skills that enable him to go fast and get good results on the track."

- KEN KUCHER
ADVANCED MICRO DEVICES

"Fastest driver I've ever seen go through school."

- CASE MONTGOMERY
RUSSELL RACING INSTRUCTOR
TOYOTA ATLANTIC SERIES RACE WINNER

"Chantz Wade is an instructor for my kart school and does an exceptional job in instructing students about the basics as well as advanced karting techniques. He and my other instructors are in the karts most of the day, giving them a lot of seat time which has allowed him to acquire excellent driving skills necessary for kart racing as well as auto racing in both amateur and pro levels."

- LISA CACERES
PRESIDENT
RACE KARTS! INC.

"I've known Chantz as an employee and as a factory customer. He's shown serious commitment toward realizing his goals. Through genuine effort, Chantz has realized levels of racing generally reserved exclusively for factory teams. He has proven himself a professional driver on and off the track and worthy of a license at any level."

- CRAIG MOORE
GENERAL MANAGER
TRACKMAGIC
RACING KARTS

"Chantz has proven knowledge in three important aspects of racing: mechanical, driving and the psychological edge. A true racing champion has to possess mechanical knowledge, plus understand the "guts" of the car while being able to communicate this to engineers with clarity. Driving, is of course, a skill developed over time. The drive to win is innate; you either have it or you don't. Chantz possess all the necessary skills, but it is this innate quality that separates him from all others — he was born to win races! He reinforces his domination with every race and is usually met with applause from spectators at local kart clubs. Chantz has taught me not only to be a competitive racer, but to understand all the dynamics of racing. If I were going to invest my money on a successful team, Chantz would not only be my first, but would also be the best choice."

- DAN KENNEDY
REGIONAL SALES EXECUTIVE
BLUE CROSS AND BLUE SHIELD OF TEXAS

Chantz Wade has competed in 40 shifter kart events in the past two years, winning 32 of those events. He's also been a racing instructor at the Russell Racing School, Skip Barber and Race Ready Karts. These are some of his racing results over the past six years.
