

School of Journalism and Mass Communication

- Computer Lab
- Laptop Lounge
- Teaching Lab
- Maker Space
- Multimedia Room

Our **Digital Media Innovation and Mass Communication (DMI)** major prepares students for a range of careers across the communication spectrum, as well as new positions in emerging digital markets.

In our **Media Innovation Lab (MILab)**, students and faculty can experiment with 360° video, drones, sensors, and other innovative technologies and receive training in a wide range of web development and social media techniques.

MILab offers a central point for a broad range of digital media activities—scholarship, curriculum, faculty development, courses, community networking and events.

DMI Major | MILab | Texas State Student Media

- Student Leader Offices
- Newsroom
- Three Production Studios
- On-air Recording Booth

The renovated **Trinity** building is the new home of **Texas State Student Media**—The University Star and KTSW 88.9. Co-locating media operations in one state-of-the-art facility provides students with excellent learning opportunities.
